

Our Programs

2-Years old (Non-Toilet Trained)

We provide a beautiful environment year round for our two year old to explore and develop at their individual pace. The children will continue to work on socialization, toileting, and using the Montessori materials. These materials help the children gain independence, increase hand-eye coordination, and develop a positive self-image. The children will also be doing weekly art projects, cooking, and water play.

Primary 2 1/2– 4 1/2 years old (Toilet Trained)

Welcome to our fun-filled summer! Morning revolves around the traditional Montessori work period, helping our students gain confidence in their academic skills, especially in the areas of math and language. Afternoon will be spent doing art, science and cooking projects pertaining to the weekly theme.

Primary 4 1/2-6 years old

Attending summer school your child will learn the routines of the classroom and begin the challenging, but enticing academic program. Students spend their mornings in a Montessori work period, independently working on math and language. Afternoons will be spent on the thematic studies. Special outings to local attractions will be part of the fun!

Weekly plan

Session I:

Week 1 (June 15th-June 19th): Science
