

### Montessori Reading Program

Students will be introduced to each unit of study with a variety of engaging techniques such as dynamic read-alouds, Book-in-a-Box, music, tableaux, and more. Students will work individually and in small groups to eventually write and illustrate their own autobiography, research historical figures and craft biographies, adapt a story into a play, create a book of poetry, and compare and contrast fiction from nonfiction and fables, folktales, fairytales, myths, legends, and more.

Students will grow their love of reading and writing in Room 5 this summer! Children ages 5-8 are welcome to join us as we study genres from autobiographies to poetry and playwriting. Students will be encouraged to be creative, to practice public speaking and performing in front of the class, and to have fun!

*“...education is not something which the teacher does, but a natural process which develops spontaneously in the human being. It is not acquired by listening to words, but in virtue of experiences in which the child acts on this environment.*

*The teacher's task is not to talk, but to prepare and arrange a series of motives for cultural activity in a special environment for the child.”*

-Maria Montessori, The Absorbent Mind
